RE: Storage, Office & Exam Room Improvements

All,

We have put together a cost estimate for the scope of work anticipated to construct/improve your existing facility with (2) Exam Rooms and Office Space the attached preliminary sketches. We anticipate that the proposed improvements will not require a permit from the San Juan Building Department, as we consider these to be non-structural changes and conform to the original building layout. Our cost for the project improvements per the information provided is \$58,452.00, plus any applicable sales tax. Included in this proposal is a breakdown of the scope of work included, clarifications, and exclusions included in this estimate.

Once the scope is agreed on, we propose to construct this project on a Cost-plus Fixed Fee with a Guaranteed Maximum Price (GMP) basis with additions and deletions by change order. This allows you to take advantage of any cost savings achieved through the construction process, and to bring this project in at the lowest possible final project cost.

Thank you for the opportunity to work with you on this project. Should you have any questions about our proposed price or need further breakdown of the costs, please feel free to call or email either one of us.

Regards,

Duke Fishen

Doug Lisser

Chad Fisher Construction, LLC 15900 Preston Place Burlington, WA 98233 www.cfisherconstruction.com

Scope of Work Included & Clarifications:

- General Conditions, Supervision, Safety & Clean Up
 - Prevailing Wages
 - Subsistence & Travel

• Sitework:

- o Remove & dispose existing vinyl flooring in Storage Room and prep for new carpet
- Remove & dispose existing carpet in proposed Exam Rooms and prep for new vinyl
- Demolish & dispose existing GWB as required for plumbing & electrical improvements
- o Remove & salvage existing double basin sink in Storage Room
- Remove & salvage existing dishwasher in Storage Room
- Remove and salvage existing wood door, door swing is not per desired layout

Concrete

o None

Framing

- Frame new walls per proposed sketch
- Frame window openings per proposed sketch
- Furnish & install window casings and trim
- Furnish & install wood jamb and trim for door

Dampproofing

- o Furnish & install sound batt insulation in new interior wall
- Furnish caulking as needed for proper dampproofing

• Doors & Windows

- Allowance for:
 - Furnish & install (2) new exterior aluminum framed operable windows, match existing location & finish
- Furnish & install (1) interior wood door to match existing
- Remove and install existing door hardware on new door

Finishes

- Furnish & install GWB on new Exam Room wall, including tape & texture
- Repair existing GWB removed as required for plumbing & electrical improvements
- o Furnish & install interior paint, color selection by Owner
- Furnish & install exterior paint, match existing exterior
- Furnish & install new vinyl flooring, match existing Exam Rooms, if product available
- Furnish & install rubber base in new Exam Rooms, match existing Exam Rooms, if product available
- o Furnish & install new carpet, match existing Offices, if product available

Equipment

Provide (1) mini-fridge in new Office area, located at existing dishwasher opening

• Furnishings

- Allowance for:
 - Furnish & install (2) casework & upper cabinets in Exam Rooms, match existing Exam Rooms, if product available
 - Furnish & install new countertop in Office area with opening for single basin sink

Plumbing

- Waste piping and vents as required for (2) Exam Room sinks per proposed sketch
- Hot & cold-water piping as required for (2) Exam Room sinks per proposed sketch
- o (2) Handwash sinks for Exam Rooms per proposed sketch
- (1) single basin sink in Office area, size selection per Owner

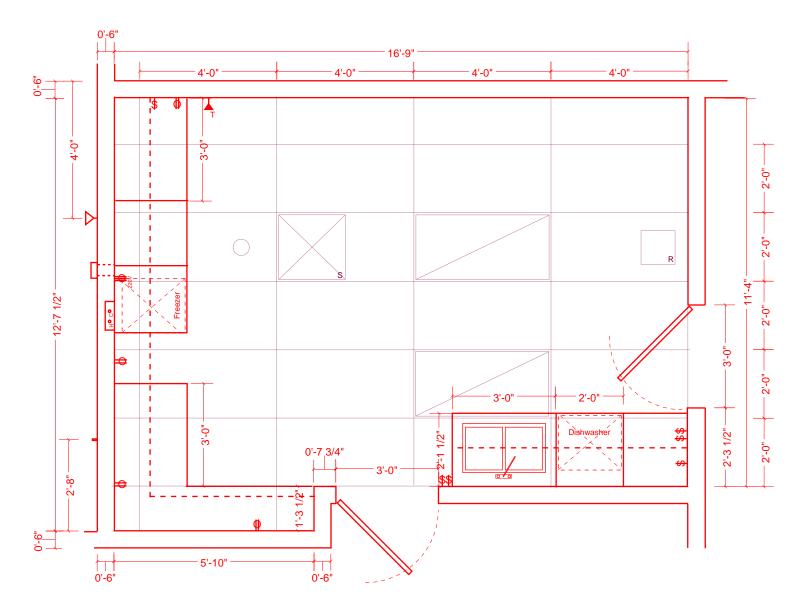

HVAC

None indicated in design drawings

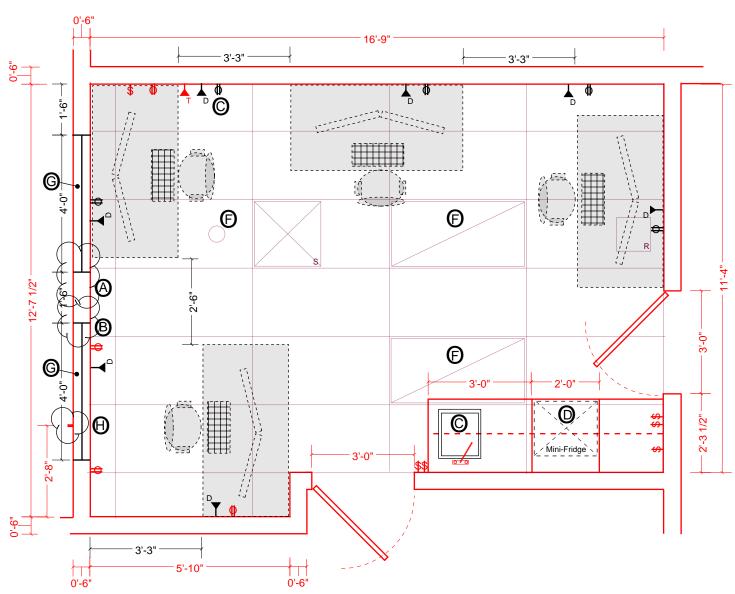

- Electrical
 - o Relocate (1) light fixture per proposed sketch
 - Conductor, conduit, and boxes as required for power & data outlets per proposed sketch or as required by Owner

Exclusions:

- Washington State Sales Tax
- Washington State L&I plan review (electrical)
- Performance / Payment Bonds
- Builders Risk Insurance
- Containments and disposal of any hazardous materials
- Permits and Fees
- Special Testing and Inspections
- Infiltration Air Barrier Testing
- Finishes other than identified above
- Fire detection or alarm systems
- Security System and Camera install or relocation of existing system
- Telecommunication, Cabling, Switches, and patch cords are by others

Existing Conditions

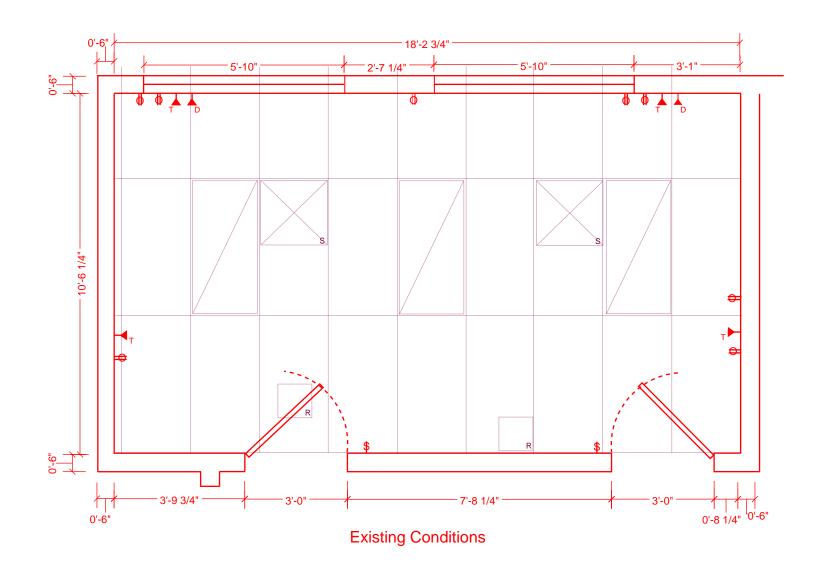

Proposed Floor Plan

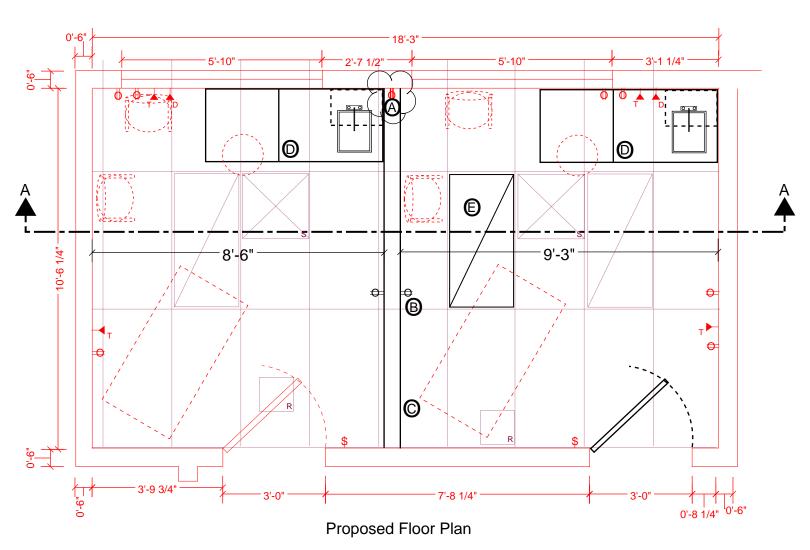

Scope of Work

- A = Remove existing 220V outlet & dryer vent
- **B** = Remove H/C water piping & valves
- C = New 110V duplex &/or data outlets, typ.
- D = Replace double basin sink with single basin
- E = Replace dishwasher with mini-fridge
- **(F)**= Upgrade lighting per furniture layout/preference
- **(G)** = New 18" x 48" window, sill @ 60 1/2" AFF
- (H) = Relocate condensate drain for new window

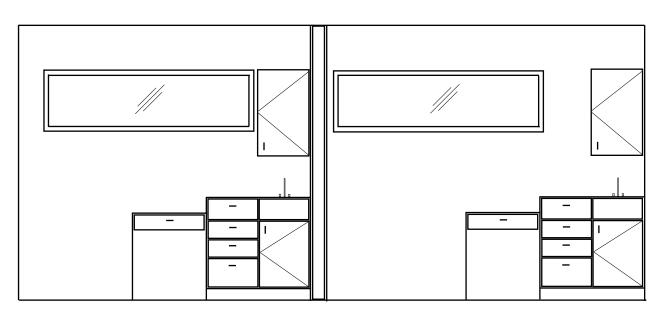

Island Health - Orcas Clinic Storage to Office Improvements 03-10-2022

Scope of Work

- A = Remove existing outlet
- **B** = New 110V duplex outlets
- © = New 2x4 full height wall 5/8" GWB w/ sound insulation
- New Casework with sinks & faucets
- E = Relocate light fixture
